

Moorelands Kids

**Moorelands
Camp
project DIVE**

*We Empower Kids to realize
their potential to succeed!*

Camp truly transformed me for the better and it taught me lessons I wished I had learnt at schools years before.

- John, age 14

What is **project DIVE**? (**Develop, Increase, Validate, Explore**)

project DIVE is an advanced leadership program with limited spaces for campers in grade 3 - 8. Potential *project DIVE* participants are campers who have demonstrated their desire to be positive leaders during their previous *Moorelands Camp* experience.

Moorelands' campers return to camp for a week of *project DIVE* activities that focus on building on the fundamentals of leadership and strengthening the learning that has already happened in their first week of camp. Campers have the opportunity to further develop their leadership through this intentional program and choosing from a variety of camp activities.

project DIVE campers will:

1. Learn the fundamentals of being a role model and practice positive role modelling skills
2. Deepen their love of nature and interaction in outdoor recreation with an environmental stewardship focus
3. Learn how to be a person of influence with the focus on their community and environmental impact

Throughout the program:

- Campers will set their personal leadership goals and strive to achieve them during the program
- Campers will actively demonstrate and apply the habits and qualities during the daily programming at camp
- Campers will make a plan to be a role model outside of *Moorelands Camp* by applying at least one of the *Moorelands Habits & Qualities* in their communities
